Primary Care Montana (PCMT) Enrollment Deadline Extended - Final Opportunity for Retroactive PMPM Payments

The Primary Care Montana (PCMT) Program began on July 1, 2026, and temporary PCMT program enrollment opened on June 22, 2026. Providers were previously notified that enrollment in PCMT requires completion of the applicable enrollment actions through the Montana Healthcare Programs Provider Services Portal, including completion of the required PCMT Provider Enrollment Agreement and PCMT Attestations.

Why This Deadline Is Important

This extension is the final opportunity for eligible providers seeking Tier 1 or Tier 2 participation to complete PCMT enrollment and receive **retroactive** PMPM payments to July 1, 2026, for attributed members.

To qualify for retroactive PMPM payments, the provider's completed PCMT enrollment must be submitted through the Provider Services Portal by the **end of the day September 14, 2026**.

Providers should not assume that participation in the PCMT technical assistance or other PCMT-related activities means they are enrolled in the PCMT program.

Enrollment in Provider Technical Assistance (TA) is not PCMT provider enrollment.

Providers receiving TA through Health Management Associates (HMA), attending PCMT Key Partner and/or TA meetings, training, or otherwise participating in PCMT implementation activities must still separately complete the formal PCMT enrollment process.

PCMT enrollment includes completing all required enrollment actions, including:

- Submitting the PCMT enrollment through the Provider Services Portal;
- Completing the required PCMT Provider Attestation;
- Completing the required PCMT Provider Enrollment Agreement; and
- Providing any other information required to complete and approve the PCMT enrollment.

If these requirements have not been completed, the provider is not yet fully enrolled in PCMT, regardless of participation in Provider TA.

What Happens After September 14, 2026

Providers may continue to enroll in PCMT after September 14, 2026. However, September 14 is the final deadline to qualify for PMPM payments retroactive to July 1, 2026.

Providers who complete and submit PCMT enrollment on or after **September 15, 2026**, will not receive retroactive PMPM payments for July and August based on this temporary enrollment period. Once the provider's enrollment is completed and approved, PMPM payments for attributed members will begin in accordance with the PCMT payment methodology, beginning with the month following acceptance into the program.

There will be no additional extension of the retroactive enrollment deadline. Providers intending to participate in PCMT Tier 1 or Tier 2 and receive retroactive PMPM payments should confirm now that their PCMT enrollment, Provider Enrollment Agreement, and Attestation have been completed and submitted.

How to Enroll

PCMT enrollment must be completed through the **Montana Healthcare Programs Provider Services Portal: [Provider Services Portal](#)**. Provider Relations can assist providers with the PCMT enrollment process.
